CLIENT ADVISORY

November 1, 2010

To: Clients of Walker, Fluke & Sheldon, PLC

Re: Electronic Federal Tax Payment System

Beginning January 1, 2011, the Internal Revenue Service will require tax payments to be made directly to the Internal Revenue Service using the Electronic Federal Tax Payment System (EFTPS). This requirement will eliminate the ability to make federal tax deposits by paper coupon at your local bank after December 31, 2010.

EFTPS is a free service offered by the US Department of Treasury to help taxpayers conveniently pay all federal taxes electronically. The EFTPS system operates 24 hours a day, seven days a week and allows taxpayers to schedule business tax payments up to 120 days in advance of their desired payment date. The system is designed to significantly reduce payment-related errors that can result in costly penalties.

As a client of WFS, to accommodate you with this transition, we will be enrolling your business in the EFTPS system at no cost.

If you should have any questions or wish to discuss this or any other accounting or tax question, please feel free to give our office a call. Please remember, we will be posting Client Advisories on-line at www.wfscpas.com.

Thank you,

Julie Welton
Executive Manager
Walker, Fluke & Sheldon, PLC
